SERVICES PROVIDED:

Renaissance Recovery Resources, Inc. provides Alcohol & Drug Outpatient services. We are a private agency offering three ASAM levels of care: 0.5 (Education,) 1.0 (Outpatient,) and 11.1 (Intensive Outpatient.) Our treatment contacts consist of community-based referrals and self-referrals. The services we provide include assessment, drug screens, treatment planning, individual and group therapy, case management and discharge planning. We provide services to all age groups, including a youth program.

ROLE OF THE PRACTICUM STUDENT:

The practicum student will be expected to participate in all services provided by this agency, under the supervision of the Clinical Supervisor. You will learn the process of scheduling, assessments, treatment planning, chart organization and therapy. You may be assigned tasks and participate in weekly Clinical Supervision. This is a non-pay practicum, but you will have an opportunity to gain valuable hours towards your CADC.

REQUIREMENTS FOR PRACTICUM STUDENTS:

This agency prefers a second site student. If in recovery, we ask that you have a minimum of one year sobriety time. The practicum student must be able to perform basic tasks related to clinical work and be comfortable working with high-risk populations. This person must be reliable, professional, and have the ability to follow directions. As this is a working business, we ask that you present yourself as a working professional. Please provide a cover letter and resume when applying for this practicum opportunity. Also, our groups are scheduled from 6-8 pm on weekdays, so you will need to be available to attend.

EMPLOYMENT OUTLOOK:

You may have the opportunity to apply for a CADC I position once you have completed your educational requirements and are in the process of obtaining your credentials. Please check with the Clinical Supervisor following your practicum for possible employment opportunities.

CRIMINAL HISTORY CHECK MAY BE REQUIRED

As of April 15, 2011, practicum sites that use the Department of Human Services Background Check Unit will now conduct a weighing test and fitness determination when an individual has been identified as the perpetrator of abuse in certain cases of sexual abuse, physical abuse or financial exploitation. The Background Check Unit will specifically consider the most serious cases of abuse reported and substantiated from January 1, 2010, forward.
